MARCH 30, 2015

SITUATION IN YEMEN

Your Managers have been informed that, due to heavy fighting between Houthi militiamen and government forces, all airports in Yemen have been closed.

The port of Aden has also been closed. It is understood that the ports of Hodeidah and Saleef are currently operational but are, reportedly, being targeted by rebel aircraft. In any event, it would appear that the discharge of dry cargoes has been stopped by reason of the unavailability of stevedores in consequence of the hostilities.

Members will be kept informed of developments as further information emerges.
